

SHOUBHIT BANERJEE

Jaipur, Rajasthan | +91 7568892087 | shoubhit004@gmail.com

[GitHub](#) | [LinkedIn](#) | [Portfolio](#)

Professional Summary

MCA first-year student with hands-on experience building AI-powered web applications using FastAPI, Google Gemini API, and modern backend technologies. Passionate about backend development and AI applications, seeking opportunities to build scalable software solutions and grow as a software engineer.

Projects

InsightForge – AI Opportunity Discovery Platform *Capstone Project | Google 5-Day Intensive Vibe Coding (10x Agents)*

[GitHub Repository](#) | [Live Demo](#)

- Built an AI-powered opportunity discovery platform using **FastAPI, Next.js (Antigravity-assisted), Google Gemini API, and DuckDuckGo Search**.
- Implemented an AI-driven workflow for real-time market research, competitor analysis, and opportunity scoring using structured LLM outputs.
- Developed a report management system supporting scan history, evidence logs, and structured business insights.

Tech: FastAPI • Google Gemini API • DuckDuckGo Search • SQLite • Pydantic

NeonChat – AI Persona Chatbot

[GitHub Repository](#) | [Live Demo](#)

- Built a FastAPI-powered AI chatbot featuring **11 custom AI personas** with browser-based conversation context.
- Integrated an **Antigravity-assisted frontend** with Google Gemini API to deliver persona-aware conversations and an interactive chat experience.
- Implemented prompt orchestration, session persistence, and **SlowAPI-based** request limiting for efficient and reliable interactions.

Tech: FastAPI • Google Gemini API • JavaScript • HTML • CSS • SlowAPI • Pydantic

Flipkart Mobile Data Scraper & Product Filtering Platform

[GitHub Repository](#) | [Live Demo](#)

- Developed a **Scrapy-based web scraper** to extract mobile product listings, specifications, and pricing data from Flipkart.
- Built a searchable product filtering interface with database integration for efficient product exploration and comparison.

Automated data extraction and storage for structured product exploration through a web interface.

Tech: Python • Scrapy • MySQL • HTML • CSS • JavaScript

Technical Skills

Languages: Python, Java, JavaScript, C++, PHP, HTML, CSS

Backend: FastAPI, Pydantic

AI & APIs: Google Gemini API, Prompt Engineering

Databases: MySQL, SQLite

Tools: Git, GitHub, XAMPP

Experience

Java & PHP Development Intern

Volvo Solutions Pvt. Ltd. *(45 Days)*

- Strengthened Java and PHP fundamentals through hands-on backend development tasks.
 - Worked on CRUD operations, debugging, and problem-solving while building web applications.
 - Gained practical experience collaborating in a software development environment.
-

Education

Master of Computer Applications (MCA)

Xavier Institute of Management & Informatics, Jaipur (XIMI)

First Year | Expected Graduation: 2028

Bachelor of Computer Applications (BCA)

St. Xavier's College, Jaipur

Completed | 2026

Certifications

- Career Essentials in Generative AI — Microsoft & LinkedIn Learning
 - Google AI Agents — Kaggle
 - Google Cloud Prompt Engineering Skill Badge
 - Forage Technology Job Simulation
-

Leadership & Achievements

- Technical Secretary — TechX (2024–25)
- Committee Coordinator — Technoid 2025
- Committee Manager — Technoid 2024
- Certificate of Technical Creativity — BCA Department
- Qualified for Indian Robotics Championship National Level (2019)
